What you get:

- Fully managed, hosted and set up by TAG
- 200 MB of space for every user
- Customisable interface for every MAPS ePortfolio
- Centralised management and reporting on students' work and progress
- Assign tasks online, by individuals, groups or whole classes – includes mark schemas for the above qualifications
- Revolutionary new **Red Pen Tool** to annotate, mark, and assess student work online.
- Import your own learning resources, including SCORM content and standard base quizzes
- Submit coursework online to directly to Examination Boards
- Parent newsfeed service

On-screen assessment tool to mark and moderate a wide variety of file types completely online using an on-screen Red Pen – all comments and marks appear on transparent layers over the original work. Show exactly where in the work that an assessment criteria has been met.

Fully customisable desktop interface – add gadgets and news feeds.
