

MAPS PRIMARY EDITION

Primary schools have their own special needs when it comes to assessing and monitoring children's performance. That's why MAPS is also available in a Primary Edition

MAPS Primary Edition features a simplified interface ideal for use with younger learners. It also features additional support (such as 'Speak and Click' auditory support, when required) to make the experience better for learners of all abilities and those with special needs.

MAPS Primary Edition also features some exciting content including the portfolio of resources from The Big Bus.

The MAPS Primary Edition interface features a simple logon and access system that children can personalise with their own graphics or photos

Benefits to Teachers

- Bank of KS1 and KS2 end of unit tasks.
- Ideal platform to resolve KS2 to KS3 transition issues.
- Easy online access to students' work for review, marking and assessing.
- Saves money: no need to print out students work.

- Promotes robust assessment and moderation practices Save time delivering a Personalised Learning Strategy.
- Requires no technical expertise: setup, hosted and 100% managed by TAG Learning.
- Safe, secure and backed up daily.

Benefits to Pupils

- Intuitive interface designed specifically for KS1 and KS2 pupils.
- Speak and click: optional speaking buttons provide audio descriptions of functions using real voices for KS1 and SEN.
- Pupils manage their own customisable web-based eportfolio of assessment work, accessible anytime, anywhere, anyplace.
- Encourages communication and collaboration.
- Raises motivation and achievement.

How does MAPS work

- The system is preloaded with KS1 and KS2 end of unit tasks.
- Teachers can import their own resources, SCORM content and quizzes.
- Online quiz tools deliver tests online, including automated marking.
- Learning materials can be created and shared online
- Tasks can be assigned to individual pupils or whole classes within seconds
- The system provides a messaging system, with messages linked to tasks
- Pupils upload their work to their online portfolio for marking.
- Teachers can review, assess and moderate pupil's work online.
- Portfolios of work move with the student from school to school
